HIMANSHU CHANDOLA

Product Designer | UI/UX Designer

himanshuchandola61@gmail.com +91 8171182424 Gurugram, India

Profile

UI/UX and Product Designer with hands-on experience designing responsive digital products from concept to implementation. Skilled in user flows, wireframing, information architecture, prototyping, visual hierarchy, and interaction design. Completed a 6-month internship working on real-world digital products. Strong understanding of design and frontend implementation, supporting effective collaboration between design and development.

Experience

UI/UX & Product Designer Intern, *Pahadi Bhula Production* 15/01/2026 – 15/06/2026

- Translated product requirements and ideas into structured, user-focused experiences.
- Designed user flows, wireframes, responsive interfaces, and interactive prototypes using Figma.
- Worked on information architecture, navigation, content hierarchy, visual hierarchy, and interaction patterns.
- Designed for mobile, tablet, and desktop, focusing on usability and responsive behaviour.
- Collaborated on design iterations and supported the design-to-development process.

Education

Bachelor of Computer Applications (BCA), *Dev Bhoomi Uttarakhand University* 2023 – 2026

Projects

PahadGrow, *Product Design & Full-Stack Project*

- Designed and contributed to a Uttarakhand-focused platform combining discovery, marketplace, and community experiences.
- Created user flows, information architecture, and responsive experiences for search, events, profiles, authentication, and role-based journeys.

MaaDunagiriRental, *Product Design & Responsive Web Project*

- Designed and developed a mobile-first rental platform for a local bike and scooter rental business in Almora, Uttarakhand.
- Designed vehicle listings, pricing, galleries, destination sections, responsive layouts, and a direct WhatsApp enquiry journey.

Lokvani, *UI/UX Design Project*
Designed a concept platform focused on Uttarakhand's culture and traditions, with wireframes and prototypes emphasizing navigation and visual storytelling.

Medical Website, *Hackathon Project*
Designed structured wireframes and clean website layouts focused on accessibility, clarity, information hierarchy, and ease of use.
